

Sew and Go Totes -

We strive to ensure that the project instructions are clear and accurate, but occasionally an error creeps by us. We apologize for any problems this may have caused.

Please feel free to print this sheet and keep with your copy of Sew and Go Totes.

Floral Stripe Backpack

On step 6, page 51, you are to attach the D-Ring to the upper straps. It is unclear that 2 D Rings are to be attached at this point.

Each upper strap should have 2 D Rings threaded onto the strap – Figure 10 shows only one. The D-Rings just get placed on the strap together and then the strap is folded to the wrong side and topstitched.

Crafty Tote

In Cutting the Pieces, page 16,

Cut the lower zipper facings to **2" x 27"** (not 2" x 26"),
and

Cut the upper zipper facings to **2 ¼" x 27"** (not 2 ¼" x 26").

Tip: You can choose to leave out the zipper assembly altogether (Preparing the Zipper, starting on page 18, steps 1-9) and leave the top open for this bag. I prefer the tote made this way to carry my cutting mats and rulers!
